**1. General information**

The Foundation was incorporated under Dutch law on 19 November 2009.

**a. Basis of presentation**

The accompanying financial statements have been prepared in accordance with principles of accounting generally accepted in The Netherlands and are in compliance with the provisions of the Dutch Civil Code, Book 2, Title 9.

The Foundation follows the accrual method of accounting in preparing its financial statements. Under the accrual method the effects of transactions and other events on the assets, liabilities and income are recognized and reported in the period to which they relate rather than when cash is paid or received.

**b. Comparison previous year**

The accounting principles did not change compared to previous year. Where necessary, the presentation of the comparative figures for 2016 has been amended to allow proper comparison with the 2017 accounts.

**c. Going concern**

The accounting principles applied by the Foundation are based on the assumption that the Foundation will continue to operate as a going concern, which implies the continuity of operations, realization of assets and discharge of liabilities in the ordinary course of business.

**d. Foreign currencies**

Assets and liabilities expressed in foreign currencies have been converted into Euro at the exchange rates prevailing at the balance sheet date. Foreign currency transactions have been converted at exchange rates at the time of the transactions. The resulting exchange differences have been recognized in the profit and loss account.
