

Policy Plan of Stichting Zimbrine Charitable Foundation 2018

The broad underlying purpose of the Foundation is to sponsor education and care for children in underdeveloped areas in the Baltic states, Finland, Sweden and Africa. Further to support organisations that has the ambition to improve society and increase growth by promoting and supporting entrepreneurship, with a focus on both education and public relation.

The focus of the work, with the above broad purpose, will be in the development of culture, care, education and youth movement. In the entrepreneurship field it will be again focused more narrowly on financing of seminars, university projects, public relations initiatives and social entrepreneurship.

The funds to the Stichting are primarily planned to be raised from Zimbrine Holding BV and the network around that company. External funding are to be limited to a few focused campaigns.

The Stichting is planning to manage its funds via its board of Directors. External management is going to be considered when it is more efficient and supposed to provide a better return after cost.

Plans in 2018

1. Transfer ca 30 KEUR to Centrum för rättvisa, an organisation that protects the rights of struggling entrepreneurs.

The final decision on the donations will be made by the Board of Stichting Zimbrine Charitable Foundation on a case by case basis.
